

LACROIX Electronics: a player in the Smart Industry

Soon exhibiting at the Hannover Messe trade fair, LACROIX Electronics is positioning itself as a dynamic player in the Smart Industry.

The French and also German company has stepped up to the plate in response to the demands of its customers. In the move towards smart, digital production plants, LACROIX Electronics is the electronics sub-contractor of choice for manufacturers of tomorrow's connected devices in the industrial and home automation sectors.

Improved quality, competitiveness and turnaround times are the three main expectations of today's major contractors. Constantly innovating and developing, LACROIX Electronics offers smart, reliable solutions that they can rely on.

Hannover Messe, the world's leading trade fair for industrial technology, will take place from the 25th to the 29th of April 2016. The Smart Industry, energy efficiency and smart networks will be the main items on the agenda at this German event. The LACROIX Group subsidiary will use the occasion to present its customised solutions ranging from design through to manufacturing of electronic products.

Meet LACROIX Electronics at the HANNOVER MESSE trade fair, Hall 4 - Stand F57

About LACROIX Electronics and the LACROIX Group

Ranked amongst the top 10 European EMS (Electronics Manufacturing Services) companies, LACROIX Electronics specialises in electronics subcontracting for the industrial, home automation, health, automobile, civil avionics and defence sectors. LACROIX Electronics has a staff of more than 3220 and in 2015 achieved a turnover of 280 million Euros (+21.7%) including intra-group sales.

LACROIX Electronics, with its 4 factories and design office, offers global industrial solutions from design to mass production of electronic assemblies and sub-assemblies.

LACROIX Electronics is a business of the LACROIX Group, a technological equipment manufacturer which generated €400M revenue in 2015 and employs 4000 people.

By designing and industrializing connected and innovative equipment and technologies, the LACROIX Group enables its customers to make the world smarter and sustainable, and to gain more insight into electronic innovation as well as data, people, water and energy flows.
